BEARCAT DAY 1: GRADE 7 MATH

Solve these one step equations. You may solve on a piece of notebook paper. Remember to copy the problem before solving and show all your work.

1. $5 + x = 8$	$2. \ m - 11 = 19$	$3. \ 8 + y = -30$
$4. \ 4y = 36$	$5. \frac{x}{25} = -8$	610m = 110
1. 4 <i>y</i> = 30	0. ₂₅ — -0	0. 10m - 110

BEARCAT DAY 1: GRADE 7 MATH

Solve these one step equations. You may solve on a piece of notebook paper. Remember to copy the problem before solving and show all your work.

7. $5 + x = 8$	$8. \ m - 11 = 19$	9. $8 + y = -30$
10. $4y = 36$	11. $\frac{x}{25} = -8$	1210m = 110
