**Rules for  
Subtracting Integers (-)**

- To subtract an integer, add its opposite.
- You will need to correctly change all subtraction problems into addition problems!

**BEARCAT DAY 1: Grade 8 Math**

**Directions:** You may print this paper and complete **OR** copy the problems onto notebook paper to solve. Be sure to rewrite the subtraction problems as adding the opposite and **THEN** solve.

Subtract.

1.  $-70 - 42$
